

## Questions et réflexions

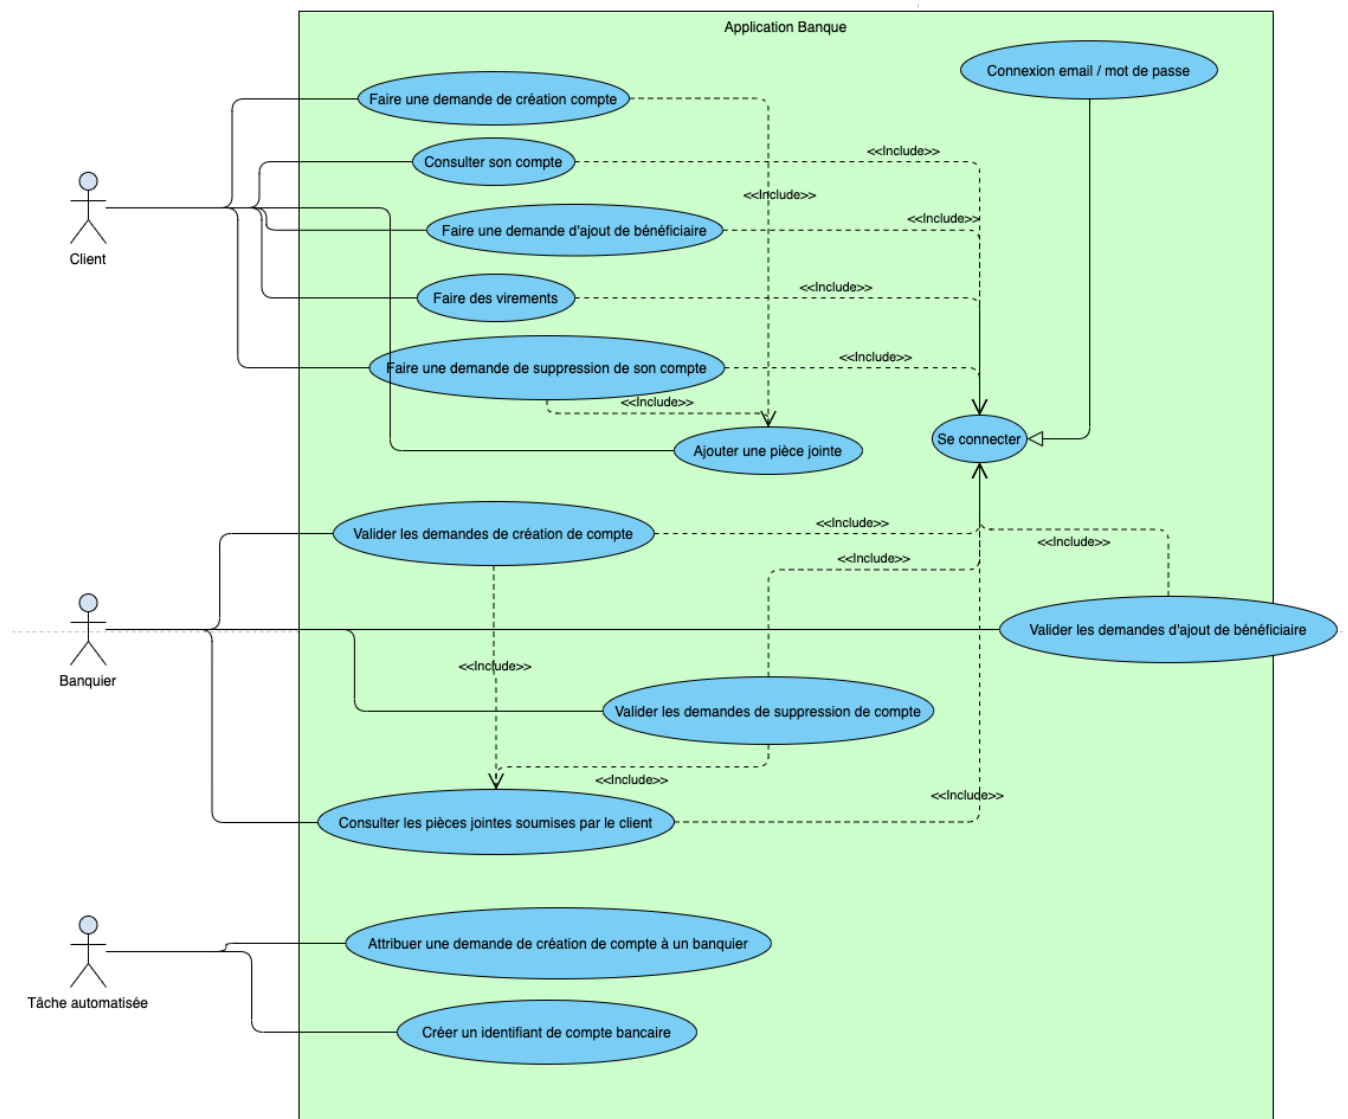

### 1 – Choix technologies :

- Front :
  - HTML 5
  - CSS 3
  - Tailwindcss (framework css)
  - Javascript
  - AlpineJS(librairie javascript)
  - ReactJS(librairie javascript)
- Back-end :
  - PHP 7.4 sous PDO avec postgresql
  - Symfony 5 (framework php)
  - Postgresql
- IDE :
  - PHPStorm
- Logiciel de développement
  - MacOS

### 2 – Les UML

Les UML ont été fait avec Visual paradigme.

## USE CASE

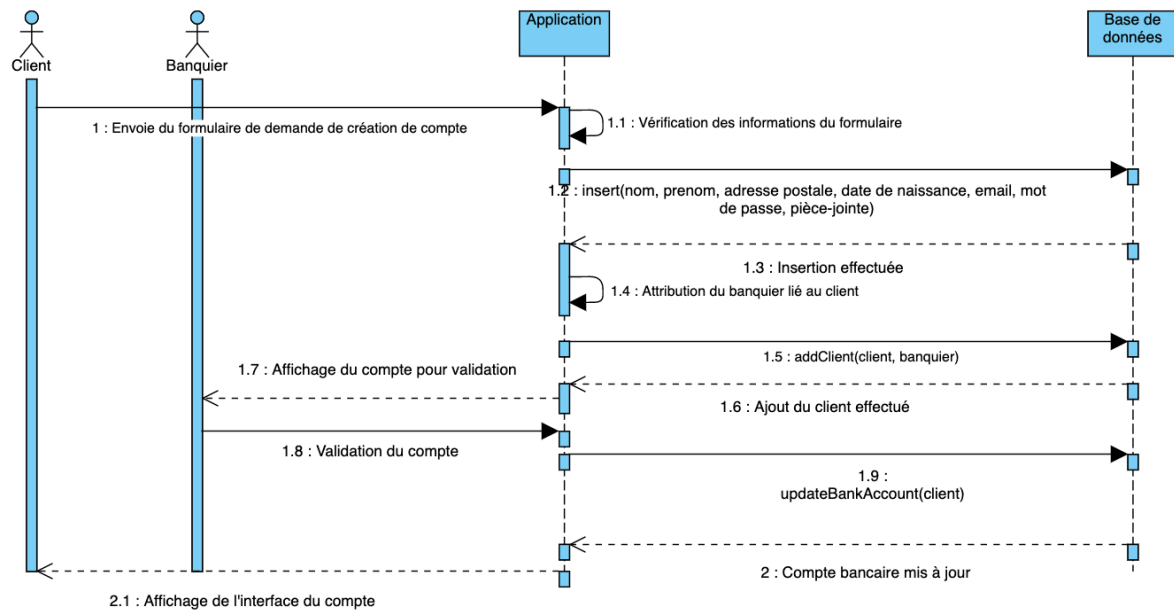

Durant ce projet je me suis posé quelques questions notamment :

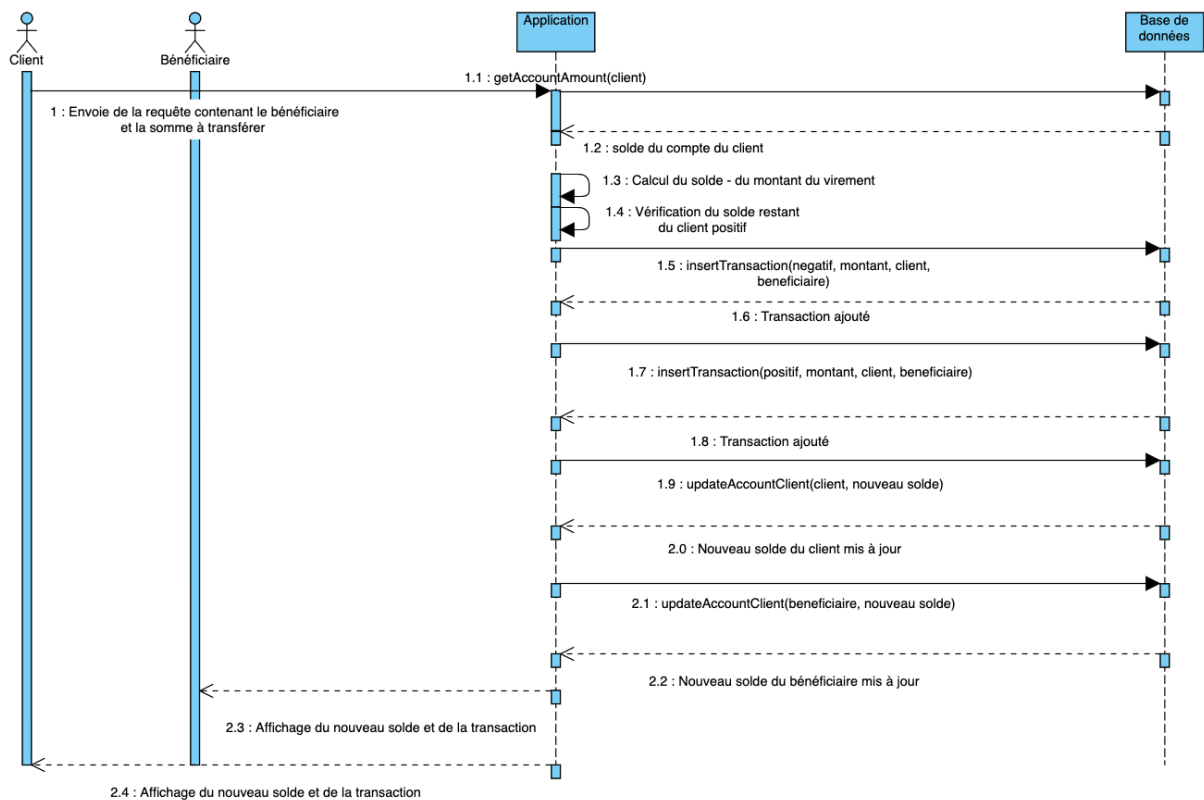

- Comment allais se dérouler une création de compte client ?
- Comment se déroule la création d'un virement ?

Pour répondre à ces questions j'ai élaboré des diagrammes de séquences, ce qui m'a permis d'avoir une vision plus claire du projet et simplifié mon développement.

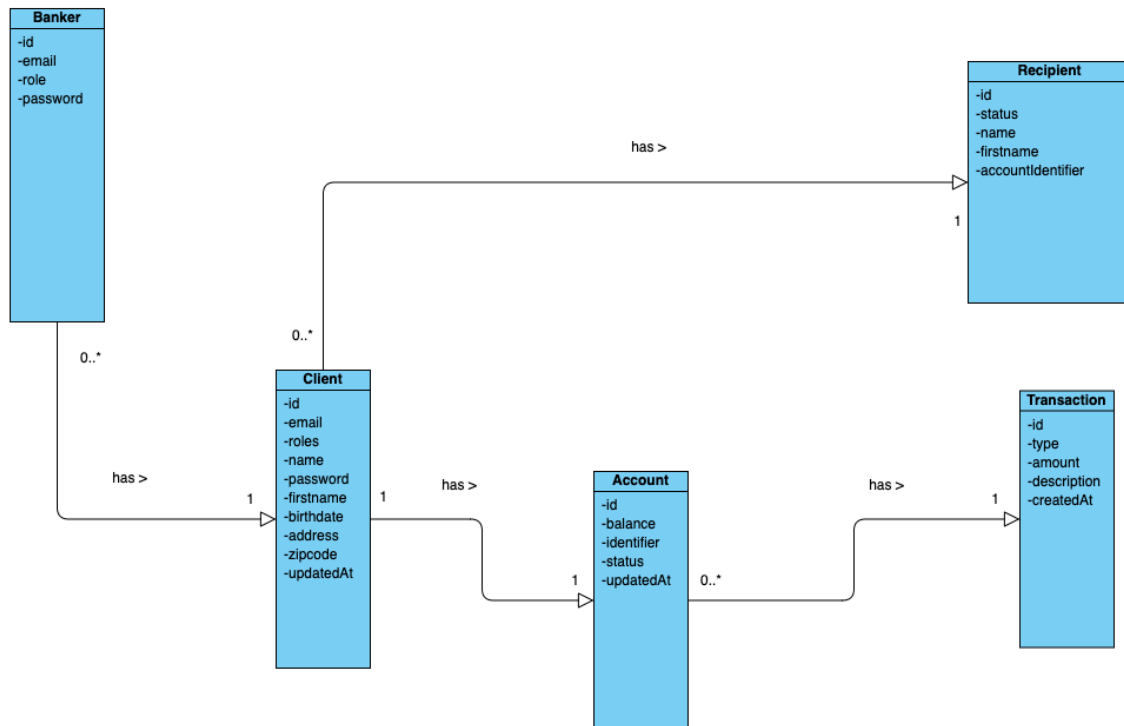

## DIAGRAMME DE SEQUENCE – CREATION DE COMPTE CLIENT

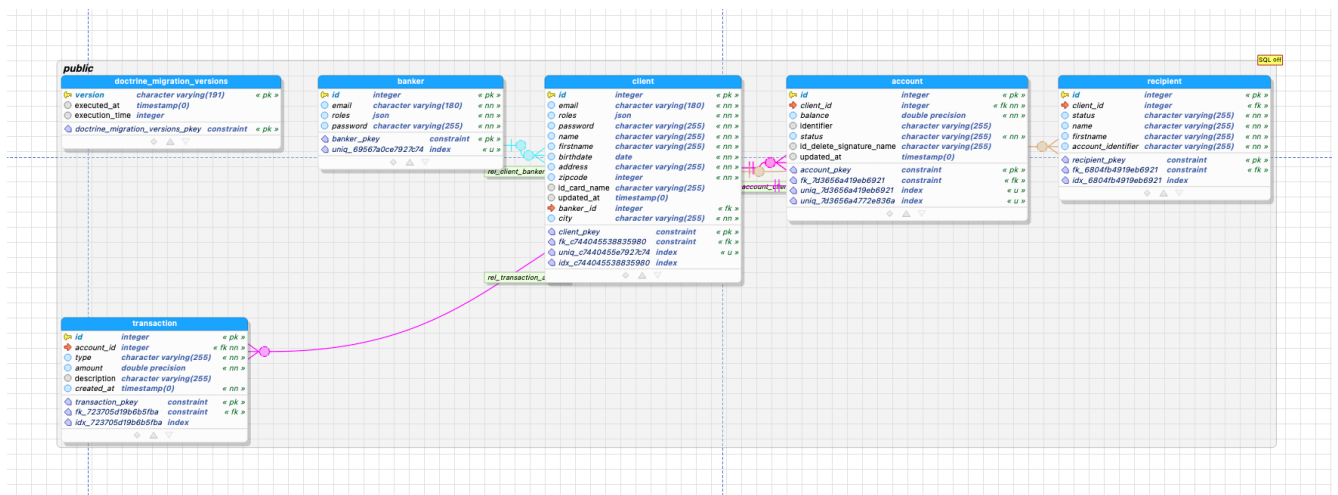

## DIAGRAMME DE SEQUENCE – CREATION D'UN VIREMENT

Le diagramme de classes :

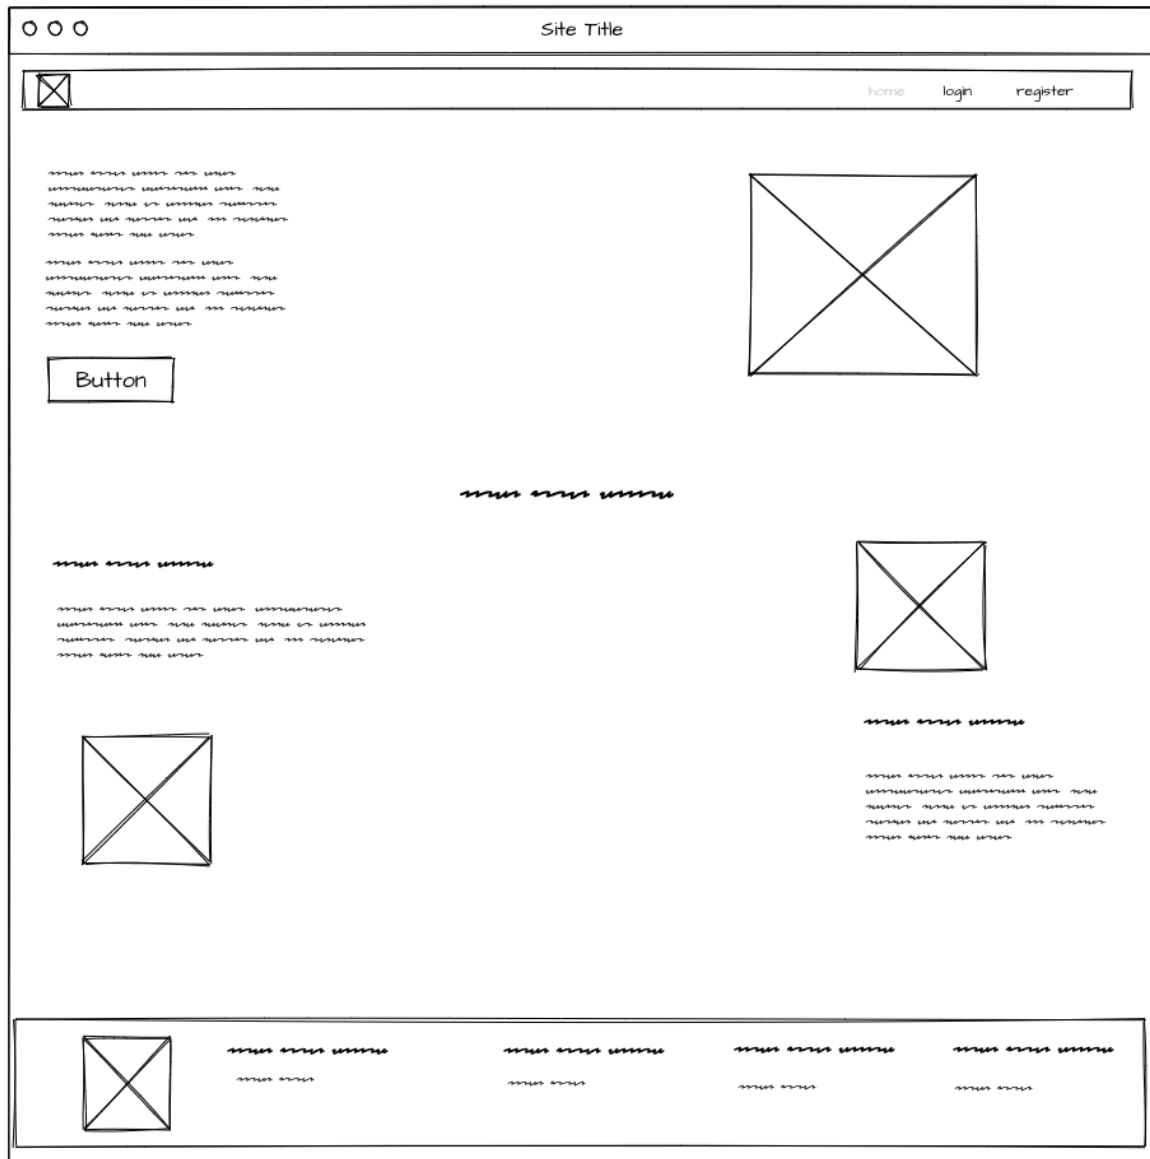

Le modèle physique de données (MPD)

### 3 – Les mockups

UTILISATEUR EN ATTENTE

## UTILISATEUR FAIRE UN VIREMENT

The wireframe depicts a web application interface. At the top, a horizontal bar contains three circles on the left and the text 'Site Title' on the right. A vertical sidebar on the left side of the page lists four navigation options: 'Dashboard', 'Make transfert', 'Recipients', and 'Delete account'. The 'Logout' button is positioned at the bottom of this sidebar. The main content area on the right features a section titled 'Make transfert' (indicated by a dashed line). Below this title is a form consisting of two input fields: 'Recipient' and 'Amount'. A dark button labeled 'Make Transfert' is located at the bottom of the form.

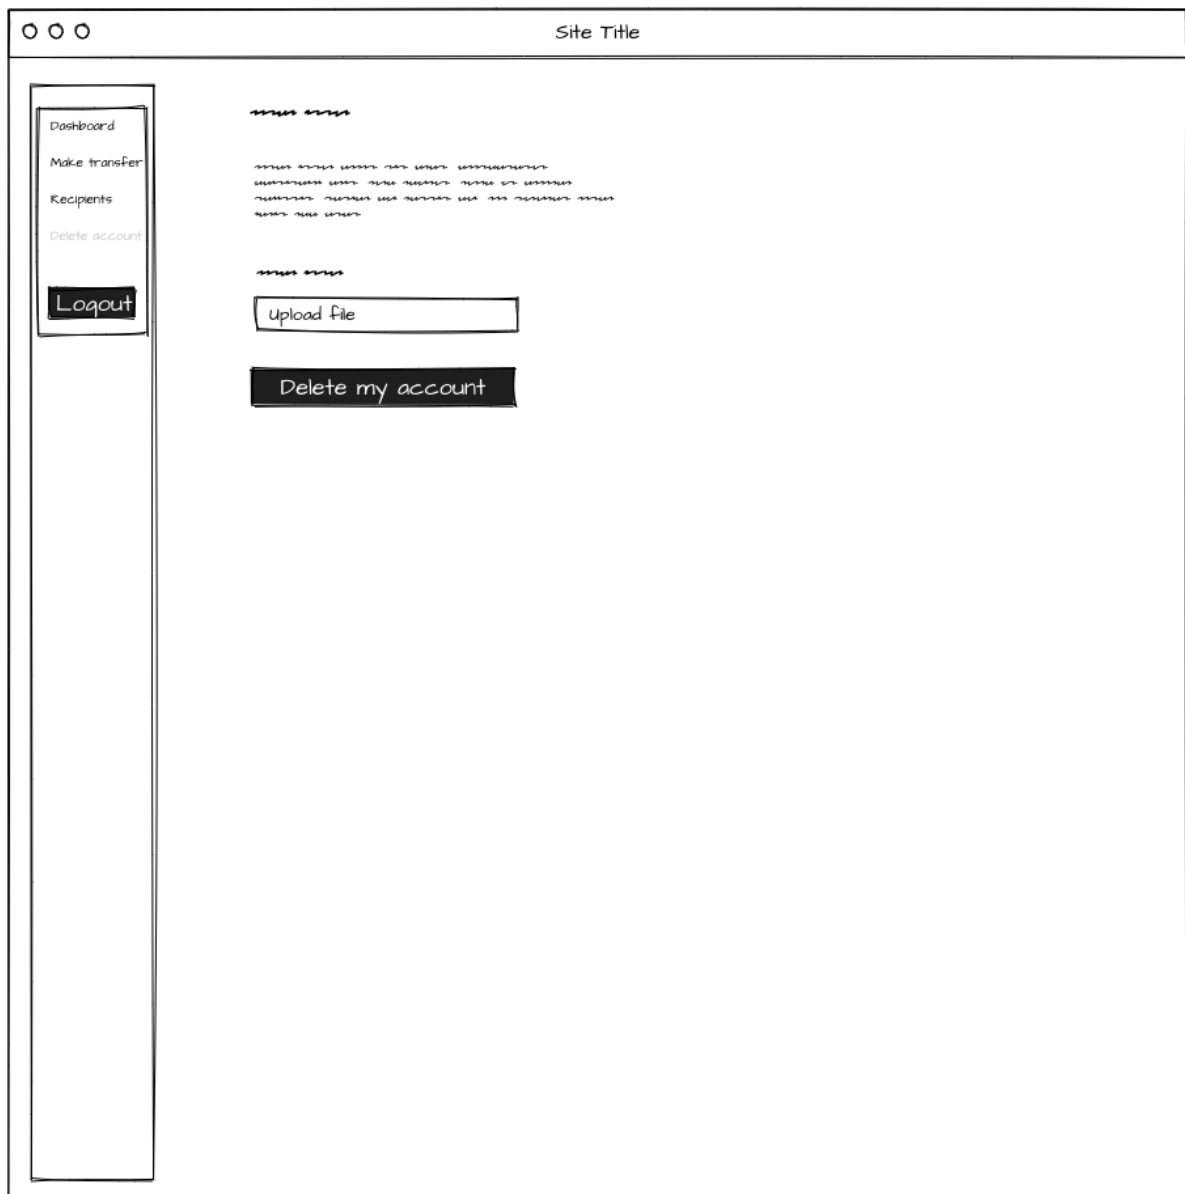

## AJOUTER UN BENEFICIAIRE

A hand-drawn wireframe of a banking dashboard. The layout includes a top navigation bar with a 'Site Title' and three circular icons on the left. A vertical sidebar on the left contains a 'Logout' button and a list of menu items: 'Dashboard', 'Make transfer', 'Recipients', and 'Delete account'. The main content area is divided into two sections. The upper section, titled 'Transfer money', contains a form with a 'Recipient Bank account' input field and an 'Add recipient' button. The lower section, titled 'Transfer money', contains a form with a 'Recipient Bank account' input field and an 'Add recipient' button. The design is minimalist, using simple lines and text to represent the interface elements.
